Frank Wise School

Prospectus Leaflet

This is a leaflet made by students for students telling you about our school. Children come here from the age of 2 - 16 to learn lots of different subjects that help us in everyday life. When you are 16 you go to the Griffiths Centre.

Residential Trips

Each year we get to go on a residential trip. These range from day trips for the younger students to a week away for the older students. Destinations range from places in England like Thomely Hall and the Lake District, to trips abroad to places like Barcelona.

Inclusion

Each week we go to a local mainstream school and take part in a lesson. This enables us to join in and socialise with our peers. This is a two way process as children from local schools also join in various activities here at Frank Wise School.

Hydrotherapy Pool

We have a lovely, warm hydrotherapy swimming pool. It has underwater lighting and we listen to relaxation music, it helps some pupils to relax during their weekly physiotherapy sessions. Each class have one swimming lesson a week and the last week of term, every class have fun sessions.

Assembly

Every Friday afternoon the whole school gather in the hall for assembly. During assembly songs are sung and awards or certificates the pupils have achieved are celebrated.

Lessons

The school day is split into four lessons. These lessons include Numeracy, Language and Communication, PE, PSHE, Science, Geography, Art, Drama and many more. As well as these lessons, all pupils have individual programmes to achieve their targets.

ICT & iWise

The school have a creative media centre called iWise. In iWise we create animations, work with green screen, edit our movies and any other I.C.T. projects we are working on. As well as this all classes have their own computer and laptops.
