

# PE and Sport Premium Report - 2019/20

The Department for Education requires that the PE and Sport Premium must be used to fund additional and sustainable improvements to the provision of PE and sport for the benefit of primary age pupils in the 2019/20 academic year. This is with the intention of encouraging the development of healthy and active lifestyles.

At Frank Wise School, The Sports Premium is used, in accordance with DfE requirements, to support engagement and achievement of all Primary aged pupils, following our inclusive ethos.

The principles underlying our use of this grant are that we want to:

1. Prioritise the physical ability of all pupils to engage with movement and physical activity in ways which ensure that they access opportunities which promote a healthy and active lifestyle, but which also support their access to education as a result of improved physical condition.
2. Ensure that the staff working with our children are as highly skilled in teaching sports and physical development as possible, supported by external expertise.
3. Provide the best PE equipment that we can, ensuring that we achieve our inclusive expectations of all pupils participating in high quality PE and Sport.

Funding allocation	Use of Funding	Impact of Funding
£5750	Motor Impaired Co-ordinator	We have sustained the provision of expertise in the area of Motor Education to support the assessment of need in children with complex physical development needs. This also enables us to provide training and support to classroom staff in the completion of motor impaired education programmes and the monitoring of the appropriateness of those programmes. The Motor Education Lead also liaises with other therapy services.
£500	Staff Training in moving and handling	By supporting the cost of staff training on manual handling we are able to ensure staff are enabled to effectively support pupils' postural management, mobility and physical wellbeing. Again, this is sustainable, good value and high impact due to very low staff turnover. Furthermore, this expertise can be applied both within the physical education curriculum and beyond.
£1000	PE Resources and expertise	Staff have access to equipment which ensures that we are able to include all pupils in PE and sporting activity. Additionally some Primary Pupils have access to input from a Cricket Coach and have recently competed in and won the Oxfordshire county table cricket tournament.
£900	Pool equipment	Upgrading of the spinal board to ensure the pool team have the correct equipment to evacuate children from the pool in the event of an emergency

£5000	Pool running costs	Contribution to the ongoing running costs associated with the pool in order to maintain staffing levels necessary for the safe operation and effective education of the pupils.
£2500	Out of School Liaison Officer support	Funding has been used to support the work of the Out of School Liaison Officer (OSLO) in ensuring that we maximise the number of pupils who have access to high quality physical activity both within and beyond school. In the past year, this has included enabling pupils to access the BBO Feel Inspired Golf Academy and swimming through the Let's Play holiday club. Current projects include supporting the establishment of an Under 8's disability football team in partnership with Banbury United Football Club and specifying outdoor gym equipment (to be funded separately) to support the ongoing development of the outdoor space.

### **Frank Wise School Swimming Competency Report 2019/20**

Below is an outline of the swimming competency of the pupils in Year 6. This has been constructed to reflect, not only the outcomes required by the PE and Sport Premium, but also the capability of the wider year group. In doing this we are also reflecting our inclusive ethos and the importance of celebrating and recognising the achievement of all of our pupils.

Pupil	Understands pool rules and how to enter the pool safely	Will independently put their face in the water	Will fully submerge to pick up a sinker from 0.75 - 1.5m	Will perform either a star float on front or back, or a mushroom float for 5 - 10 seconds	Will travel on front for a specified distance	Will travel on back for a specified distance	Will perform a safe self-rescue
1	✓	✓		✓	15m		✓
2	✓	✓			25m		✓
3	✓			✓	20m		✓
