

# Frank Wise School Newsletter

## Frank Wise School Charity Bike Ride

This year, the Frank Wise Charity Bike Ride will be taking place on Saturday 1st July at 9:45. It would be great to have members of the wider Frank Wise School community taking part, or showing their support of the riders through donations, all of which go to support the work of the Friends of Frank Wise School. Contact details for participants are in the image, and donations can be made here: <https://www.justgiving.com/page/david-kelly-1680106292053>

## School Dinner price increase in September

Unfortunately from September we will need to increase the cost of our school meals in order to ensure that the amount we charge better reflects the cost to the school. As such, the cost for a Junior lunch will increase from £2.15 to £2.35 and the cost of a Senior lunch will increase from £2.65 to £2.85.

## Residential Trips

This year's residential trips have now concluded, with a wonderful range of visits that have provided the pupils with some extraordinary experiences. It is important to note that without the financial support of the Friends of Frank Wise School, and the commitment of the school staff, who provide all of the additional hours that they work on residential visits voluntarily, these would not take place. It is their contributions that ensure we can offer these amazing experiences, which we know are so valued by both you as families and your children.

## Primary playground upgrade

Thanks to a combination of the Friends of Frank Wise School, the Department for Education, the Student Council and school staff, we have managed to fund and deliver an amazing upgrade to the Primary playground, following on from the work that we did in the Senior playground a few years ago. The all weather surfacing and new sensory and play equipment has been very well received by the pupils and is providing them with a wide range of new ways to develop their play and interaction skills.
