

6th Family Group are 'Highly Commended'!!!

At the recent Winnie the Pooh themed Planting in the Park event hosted at People's Park, the 6th Family Group received a 'Highly Commended' certificate for their centrepiece. Congratulations to all involved, a brilliant achievement!!!

Goodbye Chris!!

After ten years supporting the school buildings to keep functioning, as well as dealing with various floods, storm damage, and planned maintenance, Chris will be finally moving on to his retirement. We are extremely grateful for everything that Chris has done over the years and the flexibility he has shown, not least with supporting Our new site manager David with his induction over the past few months. All the best for a happy retirement Chris!!

New Air Handling Unit for the Pool

We have been working closely with Oxfordshire County Council regarding the installation of a new Air Handling Unit for the pool, which is now on its last legs. This is planned for installation over the coming months, along with some general upgrades to the changing rooms and the plant room. Whilst we are working hard to minimise the impact on access to the pool during term time, it is possible that the scale of the work required will mean that we will be without the pool for a period of time. If that does turn out to be the case, we will of course keep you posted.

Friday afternoon Professional Development

Following on from the consultation and the decision to finish at 2:30 on Fridays from September 2026, we thought that it might be helpful to share with you how we will be using the time to improve both the quality and safety of our school.
